New York, Sept. 12—Values of securities suffered to-any from a further drastile illaudation of speculative accounts induced by the contradiction of loans by tille banks for the purpose of replenishing their depleted reserves. Some sentimental effectives produced by the sudden death of Cornelius Vanderbill. But this event, though sudden, was not wholly unexpected, and those properties with which the hame is most closely associated gave evidence of support. Late in the day, after loans had either been readjusted or paid off, there were some notable recovertes in prices not a few of the railroad stocks rising above, yesterday's level. In the linal hour there was a rather urgent demand from the shorts to cover, which helped the raily. Some stocks gave the suppearance also of a demand from bargain hunters. All grades of stocks were thrown upon the market during the day, as the rate for call moncy was marked up by successive stages or loans were called outright.

The standard railroad stocks suffered in equal degree with the industrials, as evidenced by the weakness of the Grangers and a 2 point decline in Pennsylvania on large offerings. The hears were watchful for opportunities all day and were quick to take the market away from sellers. They had their greatest success in Brooksyn Rapid Transit, which broke to par on the opening transactions. The most strenuous efforts to support failed to hold this stock and it fell to 55. The Flower group showed keen sympathy with the weakness in this stock, People's Gas, Frederal Steel and International Paper drouned from 2 to 3 points below last right's level, and Rock Island leading the van of the Grangers.

Tennessee Coal opened off 9½ points and fluctuated very feyerishly over a range of 5 points. Colorado Flue, moved in sympathy, but otherwise the Iron and steel stocks were relatively irm and came up in the final dealings to a level above yesterday's close in several 'nistances. Sugarwas one of the heavy sufferers on the watched the final dealings to a level above yesterday

Sault Ste Marrie, Omaha and Lackawanna, in which the dealings ranged, from 3 to by.

Manhattan was weak at one time, but rullied strongly on the declaration of the regular quarterly dividend of 1 per cont. The newly listed United States Milling stocks gained 1½ and 1/2 respectfully. Rail-roads in the Southern group, the Pacifics and Atchison preferred, showed a better resistance to the weakness than the general list, and in some cases osfablished net gains before the clese. The heavy liquidation of the last two days has undoubtedly resulted in greatly strengthening the condition of the banks.

The call loan rate, after rising to 9 per cont. fell again to 6, but this was only after the day's demand had been satisfied. Reports day's demand had been satisfied to often reasons to relief so long as liquidation was made to effect by only a speculative liming. The foreign exchange rates on London, Berlin and Paris all yielded a fraction to-day, but discounts at these centers did not respond with an advance, as they won the proposed with an advance, as they won the foreign exchange rates on London, Berlin and Paris all yielded a fraction to-day, but discounts at these centers did not respond with an advance, as they won the proposed with an advance, as they won the board and the actual to the proposed with an advance, as they won the board of the same to-day to 5 per cent, though the demand in that department is not heavy.

Banks were weak the sympathy with stocks and there was considerable liquidation marfest in the speculative issues.

Total sales, par value, 1,315,000.

United States old 4's, coupon declined 4'c, in the bid price. The total sales of stocks were 772,900 shares.

The Cotton Markets.

NEW YORK COTTON MARKET.

New York, Sept. 12.—Speculation in cotton futures to-day was less active than it was yesterday. The market was decidedly weaker. The turn in prices was made largely by a local dissatisfaction with the cable accounts from Laverpool. But receipts at the ports were very heavy 2nd a rumor got out to the effect that Nell was aircady with another bearish forecast. On the opening call, therefore, the market broke 495 points and by noon showed a loss of 9411 points. The weakness in the morning was increased by selling for Wall street accounts, growing out of the great weakness in stocks. During the afternoon a rather steadler feeling prevailed with mothing particular in the way of news to explain the change. Yet the market had no substantial raily. There was some covering and not a few of the more prident shorts took their profits in preference to believing that the abnormally heavy movement of new cotton was less due. In an excessive yield than to a permature development due to the drought. The market was finally steady at a net loss of 3412 points, the market having sold off near the close under Hquidation and bear hammering.
